Duluth, Minnesota

Harmony in Connection

Nurturing Mental Wellness Together

www.macmh.org

Dear #MACMHcon24 Attendees,

I'm delighted to warmly welcome you as we gather for the Children's Mental Health Conference, #MACMHcon24. It's an honor to have you here, and I'm excited to share in this incredible journey towards nurturing mental wellness in children.

Harmony in Connection: Our 2024 Theme

This year's conference theme, "Harmony in Connection: Nurturing Mental Wellness Together," underscores the importance of coming together to create a harmonious environment that supports the mental well-being of our children. By fostering connections and collaboration, we can make a lasting impact on the lives of the youngest members of our community.

What to Expect

Throughout this event, you can anticipate:

1. **Inspiring Keynotes:** Renowned experts will share their insights and experiences, offering fresh perspectives on children's mental health.
2. **Interactive Workshops:** Engage in hands-on learning, where you can gain practical knowledge and skills that can be applied immediately.
3. **Networking Opportunities:** Connect with like-minded professionals, share ideas, and build lasting relationships.
4. **Exhibitor Showcase:** Explore the latest tools, resources, and solutions that support children's mental wellness.

Promoting Inclusion and Respect

At #MACMHcon24, we firmly believe that inclusion and respect are at the core of our mission. We value the diversity of perspectives, backgrounds, and experiences that each attendee brings to the table. It's essential that we create an environment where everyone feels valued and heard. Please join us in upholding a culture of inclusivity, where differences are celebrated, and respect for one another is paramount. Let's ensure that every participant feels comfortable and respected throughout our time together, as this is key to fostering the collaboration and harmony we seek in nurturing mental wellness. Together, let's set an example of unity and understanding for the benefit of all.

Your Role Matters

Your presence at #MACMHcon24 is pivotal. Your expertise, dedication, and commitment to improving the lives of children make a significant difference. Together, we can shape a future where mental wellness is at the forefront of our society's priorities.

Stay Connected

Stay updated throughout the conference by following our social media channels and using our official hashtag: **[#MACMHcon24]**.

Final Thoughts

Thank you for being a part of #MACMHcon24. Your dedication to children's mental health is admirable, and I have no doubt that together, we'll take significant steps toward nurturing mental wellness in our community.

Should you have any questions or need assistance during the conference, please don't hesitate to reach out to our helpful staff.

Let's embark on this journey towards harmony in connection and the nurturing of mental wellness together.

Warm regards,

 Brandon Jones
 Executive Director, MACMH

Join Us

Featuring more than 70 workshops and the opportunity to earn up to 19 CEHs, our annual conference is designed for everyone who works with or cares for infants, children and youth prenatal to age 24. Join us this April to explore cutting-edge information and learn practical strategies you can apply directly to your work with children and families.

Registration

Reserve your spot online at www.macmh.org by April 16. Early-bird rate ends March 29. Students and groups of 5+ from the same organization are eligible to receive a coupon rate. For more information, reach out to us at info@macmh.org.

Days Attending	By March 29	After March 29
One Day	\$190.00	\$199.00
Two Days	\$360.00	\$379.00
Three Days	\$410.00	\$429.00

Register now at www.macmh.org.

This is our second year using our new user/registration system.

Instructions are included on pages 23-25. Please connect with us at info@macmh.org or call 651-644-7333 if you experience issues while registering.

Things to Know

Meals

Sunday: Lunch will be available on Sunday for Supervision Attendees ONLY.

Monday & Tuesday: A light continental breakfast will be available in the Exhibit Hall from 7:30 – 8:50 am on Monday and Tuesday. Monday and Tuesday lunch is included for all attendees.

Weather

Spring weather in Duluth and temperatures within the Duluth Entertainment Convention Center facility may fluctuate. We suggest wearing light clothing and bringing a sweater or jacket to workshops.

On-Site Registration

On-site registration will be available as space allows; please email info@macmh.org to check availability.

Schedule Changes

MACMH reserves the right to substitute presenters, cancel workshops and/or reschedule due to unforeseen circumstances.

Exhibits

Move in: Sunday, April 28, 10:00 – 5:00 pm

Monday, April 29 • 7:30 am – 5:00 pm

Tuesday, April 30 • 7:30 am – 1:15 pm

Please note break periods in the schedule for extra exhibit viewing time. Continental breakfast is served in the Exhibit Hall.

Accessibility

If you need an accommodation (e.g., wheelchair accessibility, interpreter or large print materials), such accommodations will be made available upon advanced request. Please contact Amanda Xiong at axiong@macmh.org on or before April 1. For TTY, contact Minnesota Relay Service at 1-800-627-3529.

Cancellation

Refund requests must be made in writing by email to info@macmh.org at least 14 days in advance of the conference (Sunday, April 14) and are subject to 10% administrative cancellation fee. Read our full policy at www.macmh.org.

www.decc.org

Parking: Duluth Entertainment Convention Center parking is \$10.00 per day.
decc.org/parking-directions

Lodging

[Visit our website](#) to see a list of hotels that are offering special rates to conference attendees on our conference information page. *Be certain to identify that you are registering under the Minnesota Association for Children's Mental Health (MACMH) block of rooms.*

Workshop Descriptions

Target Audience

Professionals: Psychologists, marriage and family therapists, clinical social workers, counselors, mental health professionals, education professionals (e.g., special education & classroom teachers, paraprofessionals, school nurses, school counselors, school psychologists & school social workers), health care professionals, corrections professionals, infant and early childhood professionals

Parents and Caregivers: Family members, parents, caregivers, grandparents, foster parents

All: Suitable for all attendees

Clinical Content

Social workers are often required to obtain CEHs with clinical content. The sessions marked with this designation ✓ qualify for the Board of Social Work's clinical content requirement.

Level

Presenters chose levels that best describe their material and the knowledge attendees should have to derive the greatest benefit from their presentation.

Level 1: Introductory material and background information is covered. Audience needs no prior knowledge of topic.

Level 2: Material builds on existing knowledge and goes well beyond basics. Audience should have some background knowledge of topic.

Level 3: Complex, in-depth concepts or features highlighted; basic and background information will not be covered. Audience should have an intermediate understanding of topic.

Targeted Content

Targeted content has not been preapproved but may aid you in reaching your boards requirement in specific topics. Look for these icons throughout the brochure to see how workshops have been classified. Earn up to 19 CEH for all targeted content.

- Ethics Content ■
- Supervisory Content ●
- Cultural Competency Content ♥
- Clinical Content ✓
- Culture Responsiveness ♡

Continuing Education

Our conference is designed to meet continuing education requirements for many disciplines. CEHs that have not been pre-approved include:

- MN Board of Behavioral Health & Therapy (LPC, LPCC, LADC): up to 19 CEHs
- MN Board of Marriage & Family Therapy: up to 19 CEHs
- MN Board of Social Work: up to 19 CEHs
- MN Board of Psychology: up to 19 CEHs
- MN Board of School Administrators: up to 19 CEHs
- MN Board of Nursing: 19 CEHs*
- MN Board of Education: 19 CEHs*
- ND Board of Social Work: 19 CEHs*

*CEH approval requires independent submission to your board.

Option 1

Supervision Series | 10:00 am - 5:00 pm

Illuminating Paths to Effective Supervision and Dynamic Leadership

This 6-hour lecture is a comprehensive exploration of key skills and knowledge essential for effective supervision and leadership in the field. Participants will gain insights into foundational principles of supervision, honing their abilities in ethical decision-making and communication. The lecture will emphasize cultural humility, addressing the diverse backgrounds encountered in social services. Additionally, attendees will acquire valuable tools for conflict resolution, team building, and motivation, empowering them to create a positive and productive work environment. The lecture will conclude with a focus on personal and professional development planning, fostering a commitment to continuous growth in the dynamic field of social services. Overall, this session aims to equip professionals with the leadership skills necessary to excel in their roles and positively impact their communities. This series is designed to help social work supervisors meet the Minnesota Board of Social Work's requirement in the practice of licensing supervision. 6.0 CEH (continuing education hours)

Lunch will be served within the classroom from 12:15 - 1:15pm.

Brittany Clausen, MSW Founder & Visionary Strategist-Envision Greatness

Level: 1 | For: **Social Services Professional**

6 hours Supervision ●

3 hours CULTURAL COMPETENCY ♥

THANK YOU SPONSORS

Option 2 | Session 1

Legislative Update | 11:00 - 12:00

Learn what happened in the 2023 legislative session and the key issues being addressed during the 2024 session. Explore how you can be part of a movement to create change and how to make your voice heard.

Learning Objectives:

1. Learn the major bills before the legislature focused on mental health and education
2. Learn the key bills passed in 2023
3. Understand what you can do to create change

Sue Abderholden, MPH, Executive Director-NAMI Minnesota

Level: 1 | For: Everyone

Concurrent Workshops 1 - 10 | 12:15 - 1:45 pm

01- Promoting Gender Diverse Youths' Mental Health Through Creating Supportive Environments

While conversations around gender diversity are becoming more visible, many still lack comfort in navigating these topics. Studies show that gender diverse individuals face discrimination across the board, which leads to astonishing mental health disparities. In this presentation, participants will learn more about the connection between gender-inclusive spaces and positive mental health outcomes and will gain several strategies for making spaces more gender-inclusive.

Logan Sand, M. Ed. Human Sexuality, - Lutheran Social Service of MN

Level: 1 | For: Educators and Others Working in Schools & Parents and Caregivers

1.5 hours SW CULTURE RESPONSIVENESS 1.5 hours MFT CULTURAL COMPETENCY

02 - Youth Wellness Strategies for Successfully Navigating Life's Challenges

Presenters will provide participants with wellness strategies to equip adolescents to better manage their mental health and lives. The strategies provided are designed to help adolescents navigate daily life challenges in an increasingly chaotic world. Participants will acquire ten strategies for youth that will help shield them against individual, cultural and systemic barriers as they navigate their world.

Aaron Suomala Folkerds, EdD, MS, Mdiv, LMFT, Assistant Professor of Counseling - Minnesota State University-Moorhead

Diane Coursol, PhD Counseling Psychology, Professor of Counseling - Minnesota State University-Mankato

Luke Montgomery, BS, Intern/Graduate Assistant - Mankato Psychology Clinic/ Minnesota State University-Mankato

Level: 1 | For: Psychologist, Marriage and Family Therapist, Clinical Social Workers, Counselors and Parents and Caregivers

1 hour SW CLINICAL CONTENT

03 - Decolonizing Mental Health Care: The Journey of Personal Reflections for Inclusive Care

Colonization and white supremacy are rooted in America's healthcare system. Western mental health has left people of color with limited access to culturally affirming care. Eurocentric and Western therapeutic strategies contribute to the cycle of generational trauma, restricted access to care, and discriminatory therapeutic practices. By utilizing anti-racist approaches, clinicians can address limitations imposed by harmful, white-centered, heteronormative ideologies.

Henrietta Couillard, MSW, LICSW, Mental Health Counselor II - City of Minneapolis Government

Cecilia Hardacker, MA, Pre-licensed Mental Health Therapist - City of Minneapolis Government

Level: 2 | For: Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors & Health Care Professionals

1.5 hours SW CLINICAL CONTENT 1.5 hours SW CULTURE RESPONSIVENESS 1.5 hours MFT CULTURAL COMPETENCY

04 - Connecting Sensory Processing and Trauma in Early Childhood

Early Childhood trauma is traumatic experiences that occur before age five. The effects of trauma impact a child's ability to appropriately regulate and organize their sensory systems. This session will review the eight sensory systems (vision, hearing, taste, touch, smell, vestibular, proprioceptive, and interoception) and trauma informed sensory integration intervention techniques.

Michelle Fyle, MAOT, OTD, OTR/L, Early Childhood Occupational Therapist - St. Paul Public Schools

Michelle Mercado, MAOT, OTD, AOTA BCP, Lead Resource for Occupational and Physical Therapy, Developmental Adapted Physical Education

Level: 1 | For: Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors & Parents and Caregivers

1.5 hours SW CLINICAL CONTENT

05 - Professional Dangerousness: Expanding our Awareness for a More Connected World

This training comprehensively addresses four key aspects of Professional Dangerousness—identifying/defining it, recognizing its manifestations in practice, understanding its underlying causes, and exploring actionable solutions—while guiding participants in supportive strategies for organizational resolution. With a focus on expanding self-awareness, attendees deepen their professional resilience by understanding neurobiological responses to chronic emotional erosion. Relevant examples facilitate reflection, providing insights into maladaptive practices rooted in cognitive functions, social adaptations, and systemic conditioning.

Jessica Hoepfer, MSW, LISW IMH-E@/Infant Family Specialist

Bre McMullen, Consultant, Trainer

Level: 1 | For: County Child Protection Workers, Case Managers, and Social Workers & Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors

06 - You Can't Pour from an Empty Cup...Ethics and Self-Care

We have been hearing about self-care for years, it is now in the Board of Social Work Code of Ethics. What does this mean? Come to our presentation to learn more about the ethical component of self-care and then participate in creating your own self-care plan.

Stephanie Silgjord, LICSW, Director of Children and Families - Northern Pines Mental Health Center

Concurrent Workshops 1 - 10 | 12:15 - 1:45 pm

07 - Building Social Skills for Neurodiverse Adolescents with Parent Assistance - is it Helicoptering or Helpful?

This seminar focuses on evidence-based methods for improving adolescent social skills, particularly involving parents. The seminar focuses on neurodiverse adolescents. It uses PEERS social skills training methods and provides examples of specific skills and how parents can support without "helicoptering". The seminar is intended for social skills training providers, individuals who work with families affected by autism, and parents.

Joan Blackman, MA, LICSW, - Strengthen Social skills

Angie Zachrisson, LMFT, MA, post graduate certificate in marriage and family therapy, - Strengthen social skills

08 - Unlocking the Power of the Vagus Nerve: Its Crucial Role in Mental Health

Are your clients perpetually trapped in fight/flight/freeze mode, despite their best efforts? Join this insightful presentation where we unravel the key to their healing journey: the vagus nerve. Social interactions, mood management, behavior control and physical well-being, are all influenced by the transformative potential of the vagus nerve. Learn why activating this essential neural pathway is crucial for shifting clients out of perpetual stress and into the realm of recovery.

Tye Moe, Doctor of Chiropractic, Chiropractor - Whole Family Chiropractic

Level: 2 | For: Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors & Health Care Professionals

09 - Increasing the Success Rate of Reunification: An Innovative Collaboration

Join us for an enriching experience that bridges the worlds of parenting and county child protection, adding a key piece to a community dedicated to the well-being of children. By hearing the journey of this collaboration, participants will understand the synergy needed between parent coaching and county child protection and the positive impacts to empower parents through innovative strategies.

Angie Ellsworth, MS, LSW, LSC, Owner/Parent Coach/Trainer - Timeout Behavior Coaching, LLC

Chad Kirschbaum, Program Supervisor - Olmsted County Health and Human Services

Tara Braun, Program Supervisor - Olmsted County Health and Human Services

Level: 2 | For: Child Protection Workers, case managers, and social workers & Educators and Others Working in Schools

10 - Beyond Breathing: Classroom Mindfulness and Teacher Self-Compassion

During this presentation, participants will learn about mindfulness and self-compassion techniques to help students and educators focus and manage their own emotions. Activities will include a formative assessment, videos, practicing simple mindfulness techniques, and developing an easy-to-use action plan to implement in classrooms or other environments.

11 - Scars of Trauma

Each individual experiences trauma differently depending on their genetic makeup and environment. Trauma isn't visible on the outside and we have invisible scars that cause daily struggles. The world doesn't stop for trauma but for those experiencing traumatic symptoms, their world does stop. This presentation will give an inside view into how survivors go about their daily life and how you, as professionals, can best support them.

Breanna Gronli, LGSW MSW, - Sojourn Counseling

Level: 2 | For: Child Protection Workers, case managers, and social workers & Parents and Caregivers

12 - Cringe! An Exploration of Embarrassment

Cringe, embarrassed, mortified. We've all been there and we know the shame and anxiety these emotions can create in the lives of youth. Why do we remember embarrassing incidents so vividly? How do we help others to let them go? In this serious yet playful inquiry, we will discuss all things embarrassing. Practical applicable interventions will be presented.

Brad Hanson, LICSW, Manager of Student Services - PPL Schools

Level: 3 | For: Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors & Educators and Others Working in Schools

13 - Supporting Children's Mental Health through Promoting Teacher Well-Being and Classroom Environments

Teachers' health and well-being have been linked to children's social-emotional development, academic outcomes, teacher behaviors, and job-related factors. This presentation will explore intervention strategies for promoting teacher wellness, introduce a well-being program that has shown positive results, and identify factors, such as teachers' adversity history and demographics, that relate to outcomes (motivation, stress, resilience). Organization- and classroom-level strategies will be discussed.

Katie J. Stone, Ph.D., LP, Assistant Professor - University of Minnesota Medical School
Level: 2 | For: Educators and Others Working in Schools & Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors

14 - Supporting Parents and Children in Families who Have Suffered a Perinatal Loss

This presentation explores helping parents with their children when the family experiences a perinatal loss. Information for professionals working with their children will be addressed. An overview of the research on bereaved parents' experience at the time of loss and in a pregnancy that follows will be discussed with a parent panel sharing their stories from two different cultures.

16 - Neurologic Music Therapy - Creating New Pathways to Health and Wellbeing

Music has the capacity to foster positive change and impact the brain in many ways. The pervasive nature of music stimulates many regions and networks of the brain, leading to neurogenesis and cerebral plasticity. A board-certified music therapist/neurologic music therapist will present on how music is processed in the brain and provide information and live examples on the use of music in the role of mental health healing and wellbeing.

Melissa Wenzell Samborski, MM, MT-BC, Neurologic Music Therapist - Fellow, Music Therapy Co-Founder and Senior Music Therapist - MacPhail Center for Music

Option 2 | MHED Talks[®] Plus

4:15 – 6:45 pm

Mental Health Exploration & Discovery

MHED Talks[®] Plus is a presentation series in the spirit of TED Talks. Using stories—both personal and experiences from the field—each speaker has 23 minutes to share their expertise on new concepts, programs, treatment models and research. This year, we're introducing a musical component, so get ready to unwind and expand your knowledge. Following the presentations, there will be a Q&A and hors d'oeuvres networking reception.

Level: I | For: **Everyone**

Deb Kline

Arts as Alchemy: Connecting Communities to Healing Resources through Public Performance

Description of Presentation: Community silence and public stigma persist for survivors of abuse, incest, rape, attempted suicide, and mental health diagnoses. While progress is evident, pushing for advocacy must continue to ensure momentum. Deb Kline shares her passion for paying her healing forward as a Healing Arts Fundraising Troubadour, challenging audience members to transform into agents of healing by: breaking the culture of silence through group listening; supporting survivors by bearing witness to lived experiences; replacing stigma bias with empathy and compassion; and deepening the capacity to create beloved community through connection. This feature presentation will address the roadblocks and victories when sharing trauma survival as performance art, while showcasing a sample of the music, poetry, prose, and art that encompass one woman's full-circle healing journey.

Deb Kline, Owner/Operator of Wellspring Wellness, LLC, Author, Healing Arts Fundraising Troubadour

Alan O'Malley-Laursen

Music and the Brain: The Power of Music in Healing, Learning and General Well-Being

Theologian and reformer Martin Luther once said that "Next to the word of God, the noble art of music is the greatest treasure in the world. It controls our thoughts, minds, hearts and spirits." Modern day research has documented the positive impact that music can have on mental health, emotional healing, memory, learning, and the body's physiology...and more. Citing research and sharing personal and professional experience [along with a little live music] the presenter will explore the deep connection between music and the brain and its subsequent influence on health and well-being, both for ourselves and for those we encounter in this important work that we do.

Alan O'Malley-Laursen, MSW, Active Emeritus LICSW

ShaShee Yang

Music, Identity, and Connection: The Benefits of Engaging in Music and How it Brings Us Together.

Listening to music can help individuals relax, decrease stress, and improve mood significantly. Playing a musical instrument has also been shown to demonstrate as a coping mechanism for stress and reduce cortisol levels. Music also plays a role in our identities and can be tied to our specific memories and unique experience. In this presentation, the presenter shares how music as a tool helped him navigate his identity of being a second-generation Hmong American. The presenter will also share about how music can be used to engage our clients in empowerment, mindfulness, and self-expression.

How we can use music as an aid to help our clients heal and be more connected with their identities and upbringing.

ShaShee Yang, Clinical Psychology Doctoral Student

The Minnesota Association for Children's Mental Health's Infant & Early Childhood Division is launching Reflective Supervision groups this spring for Endorsed professionals and/or those pursuing Endorsement.

Designed for professionals to discuss their work in small groups, this consultation is an opportunity to reflect on the ways in which one's beliefs, life experiences and values impact their work with young children and families.

[Learn More](#)

Share the Hope

Almost immediately after Jacob was kidnapped, I began hearing from children with so many personal stories of their own victimization, their friend's trauma, and their fears. I watched the absolute terror in my own children's eyes and so badly wanted to take it all away, but I couldn't.

I will share lessons learned from children and the mental health challenges that followed after my son's kidnapping. My primary sources of information are from personal experience, talking to children in schools; their stories and their letters. Working with the National Center for Missing and Exploited Children, I learned everything I could about child abduction and child molestation/maltreatment and realized that there is no research to prove that scared kids are safer.

Throughout the very long search for Jacob, I treasured the children's letters the most. Their stories taught me, and are insightful to all who work with children.

My goal with this presentation is to share the children's perspective on a scary topic and how we as adults and caregivers can help them overcome great obstacles and be brave enough to hope. Together we can build a better, safer world for children.

Patty Wetterling, Co-Founder of Jacob Wetterling Resource Center
Patty Wetterling was a stay-at-home mother of four children when her world was rocked by the abduction of her 11 year old son Jacob, on October 22, 1989. With a shattered heart, Patty began studying child abduction and sexual exploitation. Who abducts children, how are they located, what can we do to prevent these horrible crimes? Her advocacy led her to passing Federal legislation requiring sex offender to register their addresses with law enforcement. She served on the Board of Directors for the National Center for Missing and Exploited Children for 22 years and was Chair of the board from 2012-2015.

As a consultant with the US Department of Justice's Office of Juvenile Justice and Delinquency Prevention and an Associate with the National Criminal Justice Training Center of Fox Valley Technical College, Patty has presented countless victim impact sessions to law enforcement about AMBER Alert and long-term missing programs across the country. She has been a keynote speaker at conferences addressing crimes against children and child sexual abuse and continues to fight for a world where children have the right to grow up safe and follow their dreams.

Level: 1 | For: Everyone

Session 3

10:15 am – 12:15 pm

21 - Sitting in Ambiguity: Supporting Youth and Caregivers Through Exploration of LGBTQ+ Identities

In this training, Brianna Sigg, a licensed therapist, will provide an in-depth discussion on the unique impact holding an LGBTQ+ identity can have on youth's attachment and development. Exploring clinical presentations and how our own experience plays a role when clients explore identity. Brief review of terminology, LGBTQ youth statistics resources and practical tools for support/understanding trans and queer youth in care will all be explored throughout this training.

Brianna Sigg, MSW, LICSW, Psychotherapist – LynLake Centers for Wellbeing

25 - Breathwork as a Proactive Approach to Youth Mental Health

In this presentation, we'll explore the profound impact of breathwork on youth mental health. Discover the science behind breathing, its importance in tackling anxiety, and its proven benefits. You'll learn actionable strategies, engage in hands-on practice, and discover ways to integrate breathwork into your professional toolkit. Join us for an insightful journey toward proactively improving youth mental health through the power of the breath.

Stephanie Esser, MAEd., RYT200, Certified Breathing Coach, Founder/Owner – Balancing Elephants & BE Buddy® Creator

Level: 1 | For: Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors & Educators and Others Working in Schools

26 - Psychotropic Medications: Evidence Based Management of Adverse Effects and Monitoring Guidelines - A Systems Based Approach

In 2021 alone among children, aged 5 to 17 years, 14.9% received mental health treatment while 8% of the children received prescription medications. While these medications are essential to alleviate suffering and functional impairment, they also cause serious side effects. Adverse effects are a major reason for medication non adherence. Evidence based treatment of side effects and continued monitoring are essential for symptom improvement and alleviation of distress.

Fostering Emotional Intelligence: Creating Safe Havens for Our Children

This session will delve into the critical role of emotional intelligence in effectively working with children from diverse backgrounds. We will explore the importance of practicing emotional intelligence while acknowledging and embracing diversity and how it directly contributes to improving children's emotional intelligence and fostering their overall well-being. Additionally, we will discuss the significance of creating psychologically safe environments to nurture the emotional growth of these children.

Our cultural background and identity influence our emotional intelligence and shape our relationships with others. We must understand this influence when working with children. Not only how our backgrounds impact our EQ but also recognizing how it impacts the historically and systemically marginalized children we serve

Farah Harris, MA, LCPC

Farah Harris is a psychotherapist and workplace belonging and well-being expert dedicated to disrupting unhealthy work environments. She is the founder and CEO of WorkingWell Daily®, a company that approaches workplace belonging and well-being from a psycho-social and emotional intelligence lens. Farah has helped individuals and Fortune 500 companies develop healthier workplaces where employees want to stay and thrive because their leaders and teams have grown in empathy, self-awareness, social awareness, and cultural awareness. As a mental health practitioner and consultant, Farah is aware of the intersectionality between well-being, equity, and inclusion. She is a sought-after expert on mental health, psychological safety, workplace culture, and emotional intelligence. Her work has been featured in media and podcast platforms such as Forbes, Fast Company, Business Insider, Harvard Business Review, Huffington Post, Essence, Good Morning America, Martha Stewart, Thrive Global, and Therapy for Black Girls. Farah is also the author of the international bestselling book, *The Color of Emotional Intelligence: Elevating Our Self and Social Awareness to Address Inequities*, a groundbreaking exploration of how cultural background and identity influence our emotional intelligence and shape our relationships with others.

Session 6

10:15 am – 12:15 pm

53 - Let's Talk about Behavioral Methods in Child and Family Mental Health Treatment

There is debate surrounding the efficacy, appropriateness, and ethical standing of utilizing behavioral methods (e.g., reward and punishment) in response to children's behavioral difficulties, spanning psychological science, mental health, education, and parenting. A multifaceted and critical lens will be used to examine this debate, drawing upon theory and evidence in attachment, neurobiology, trauma, behaviorism, social learning, social justice, and lived experiences, to support clinical decision making.

Level: 2 | For: Educators and Others Working in Schools & Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors

61 - Providing Mental Health Services to Sub-Saharan African/ Refugee Families in the United States of America

People from sub-Saharan Africa throughout the world experience certain universal mental health disorders. What differs is the nature of their symptoms and the way these disorders are expressed. Providers need to see mental health disorders through the eyes of an African cultural perspective. The presentation will provide insights into the unique challenges faced in accessing mental health services, and the cultural factors that can influence their attitudes toward mental health.

62 - Educating Children about Death, Grief and Loss: Teachable Moments and Formal Education

Death is something that will happen to everyone, and yet it is a taboo subject for many people, especially as a discussion topic for children. Most parents and teachers agree that children need to be educated about death, but adults often feel ill-prepared to do it. This presentation will explore ways that adults can teach children about death and grief.

Kathryn Markell, PhD, Dr. – Anoka-Ramsey Community College

Marc Markell, PhD, CT, Professor Emeritus – Edgewood College, Worsham College of Mortuary Science

Level: 1 | For: Educators and Others Working in Schools & Parents and Caregivers

63A & B (1 workshop period)

63A- "How do I Support Transgender Youth?": Language, Care, and Current Events

In this workshop we will cover foundational knowledge relating to transgender, nonbinary, and gender expansive youth. First, we will learn and practice proper language usage. Next, we will discuss gender-affirming care and best practices for working with queer and trans youth. Finally, we will cover current events affecting our clients and the mental health field as a whole.

Maia Pruim, – Reclaim (Graduate Clinical Intern)

Level: 1 | For: Psychologists, Marriage and Family Therapists, Clinical Social Workers, Counselors & Health Care Professionals

63B- Affirming Mental Health Treatment for Queer and Trans Youth and Transition Age Youth

Reclaim has been a leader in providing specialized treatment for Queer and Trans youth and young adults in MN for 15 years. We use a strength based, feminist and multicultural lens in our work to support healing in the face of recovery from MH impacts of oppression. Learn about our unique approach to intersectional identity development and healing justice work.

64 - Connecting Indigenous Youth with Cultural Resilience

This training will help providers incorporate Indigenous culture into their work with Indigenous youth. Attendees will develop confidence to create culturally inclusive programming and encourage supportive dialogue. Attendees will learn how to draw on Indigenous tradition and culture to better support young people of various tribal connections through tools and activity examples.

66 - Treating Social Anxiety Disorder in Youth: An Exposure Based Approach

This presentation will broadly focus on best practices for the assessment and treatment of social anxiety disorder in youths. The program will broadly touch on the core components of treating social anxiety disorders in youth with an emphasis on formulating robust exposure exercises. The presentation will also discuss evidence-informed tips for parents on how to support their socially anxious child and how clinicians can incorporate parents into the process.

67 - Play Therapy and Childhood Mental Health concerns in a Medical Setting

Evidence from research shows infant and early childhood attachment and disorders are relationship specific. During this time of development, adaptive experiences, adversities and disruptions have an impact on development through a child's lifespan.

During this workshop, you will learn an overview of the science of play and a review of play therapy interventions for behavioral health clinicians working in pediatric medical settings.

68 -The Neuroscience of Racism

Racism impacts our whole world, and has for as long as any of us have been alive. With the murder of George Floyd and the social uprising around it, the conversation of racism was brought further forward. The Brain Blown Podcast focused research to better understand why racism is so prevalent and violent, and what we can do to change it on a scientific level.

69 - Sources of Strength: Promoting Peer Leaders to Model Well-being

Sources of Strength is a suicide prevention program that boosts resilience and builds protective factors in the lives of young people. Peer Leaders collaborate with Adult Advisors to organize initiatives in their school through messaging campaigns to increase resilience-promoting behaviors. Outcomes include increased connectedness to adults, school engagement, positive perceptions of adult support, and referring a suicidal friend to an adult.

Kathryn Magnusson, Masters of Education, 6-12 grade MN Teaching License, – Wildewood Learning

Level: 1 | For: Educators and Others Working in Schools & Health Care Professionals

70 - The Third Bucket: Meeting the Needs of Neurodiverse Youth Boarding in Hospitals

More and more young individuals with neurodiversity, developmental delay and ACES are brought into the hospital for safety and stabilization during mental and behavioral health crises and can reside there for months. Whose job is it to care for the array of human needs of these non-medical patients while they live in the hospital awaiting placement? It actually does take a village.

Kate Hanley, BA, CCLS, – M Health Fairview Ridges Hospital

Jen Hoernke, MBA, CCLS, – M Health Fairview Ridges Hospital

Level: 2 | For: Health Care Professionals & Child Protection Workers, Case Managers, And Social Workers

71 - Unleashing Resilience: Empowering Student Success

Over 2 in 3 children face trauma events by age 16, including poverty, racism, loss, incarceration, or substance misuse. Before the pandemic, students silently struggled with disengagement and depression. Explore recent research on grades 5-9 students, highlighting activity-based SEL programs and teamwork's impact on student success. The presentation features dynamic team-building activities and fresh insights into trauma-informed research.

Tim Wofford, Director of Program Operations

Level: 2 | For: Educators and Others Working in Schools & Child Protection Workers, Case Managers, And Social Workers

72 - Helping Supervisees Use Their Self in Their Clinical Work

One goal of good supervision is to help clinicians-in-training enhance their therapeutic effectiveness. Along with other training needs, supervisors want to help their trainees provide the most ethically sound and unbiased treatment. Many supervisors are interested in helping their supervisees use their own values in a clinical setting. This workshop will define self-of-the-therapist supervision, examine the positives and potential negatives, and lay out strategies for supervisors to use immediately.

73 - The Privilege of Self Care

Mental health care has long advocated for the need for self-care, but many clients don't know what this means, have inaccurate ideas of what it means, or don't have access to it altogether. This presentation will identify what self-care is and isn't, and how providers can better meet their client's needs with accessible, culturally competent recommendations.

Nurturing the Healers: Addressing the Emotional Needs of Mental Health Professionals Post-Pandemic and Beyond

In the wake of the unprecedented challenges posed by the global pandemic, mental health professionals have been on the front lines, providing crucial support to individuals navigating the complexities of mental well-being. This keynote panel (podcast) address seeks to illuminate the often overlooked emotional needs of these resilient healers who have dedicated their lives to caring for others. As we emerge from the pandemic, it is imperative to turn our attention to the emotional well-being of mental health professionals, recognizing and addressing the unique stressors they face. This keynote will explore the multifaceted dimensions of their emotional experiences and provide insights into fostering a culture of support, resilience, and self-care within the mental health community

Brandon is the Minnesota Association for Children’s Mental Health Executive Director. He has a consulting and therapy background in addressing Adverse Childhood Experiences (ACEs), Historical and Intergenerational trauma, Social/Emotional Intelligence (EQ), Leadership, and Intercultural Development Inventory (IDI). Brandon holds a B.A. in Sociology from the University of Minnesota, a master’s in Community Psychology from Metropolitan State University, and a master’s in Psychotherapy (MFT) from Adler Graduate School. Brandon is also a 2013 Bush Foundation Leadership Fellow. He lives by the motto of “Live life with Purpose on Purpose.”

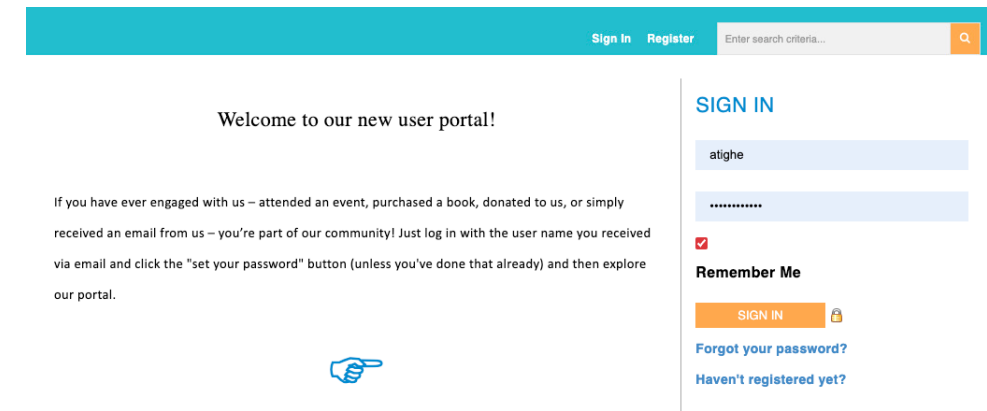

Jazlynn Paige is the founder of Paige Psychological Consulting and is a nationally certified licensed School Psychologist as well as a special education consultant for families, schools and organizations. She worked as a full time school psychologist for 6 years before starting her own business in 2019. Jazlynn contracts with school districts across MN providing a range of services including intellectual assessment, social skills, counseling and more. She also provides a range of training ranging from mental health to special education. Jazlynn loves building relationships with children and their families; she believes it is a prerequisite to the success of children during their academic journey. On her website you can purchase her affirmation card decks titled “Master Your Mindset” aimed to instill positivity and self-confidence for children and adults.

Liz Franklin is the Associate Director of Behavioral Health at Comunidades Latinas Unidas en Servicio (CLUES). Liz also teaches the Advanced Clinical Practice with Children and Adolescents course in the School of Social Work’s graduate program at the University of Minnesota. Throughout her career, she has focused on working with kids and families, often in under-served communities, who have experienced complex trauma and/or symptoms of anxiety, depression, Autism, Attention-Deficit/Hyperactivity Disorder, and other learning or developmental differences. Liz is fluent in Spanish and frequently works with first, second, and subsequent generations of Latinx immigrants. Reducing barriers to inclusive, culturally responsive services through provider development has been a core part of Liz’s work. Her professional experiences have demonstrated to her the importance and difficulty of navigating mental health, educational, and social service systems, and she is passionate about helping families and caregivers understand and work with the multiple systems that impact their children in a more empowered way. While working at Washburn Center for Children, Liz helped create an internal consultation group for the Spanish-speaking providers at Washburn in 2011, helped found the Twin Cities Spanish-speaking Provider Consortium in 2012, and co-developed the three-part Diversity, Inclusion, and Culturally Responsive Practice training currently offered through Washburn’s Training Institute. Liz continues to facilitate the Twin Cities Spanish-speaking Provider Consortium, an interdisciplinary group of over 200 Spanish-speaking mental health providers, social service providers, medical social workers, and school social workers.
